About Kalendo
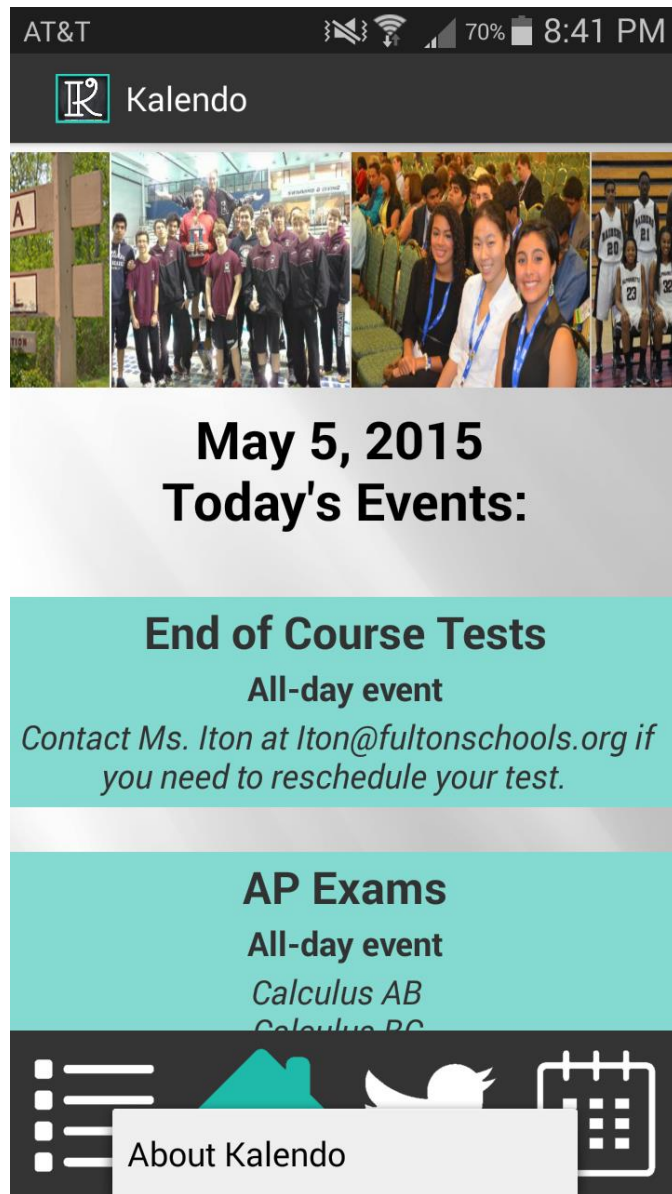

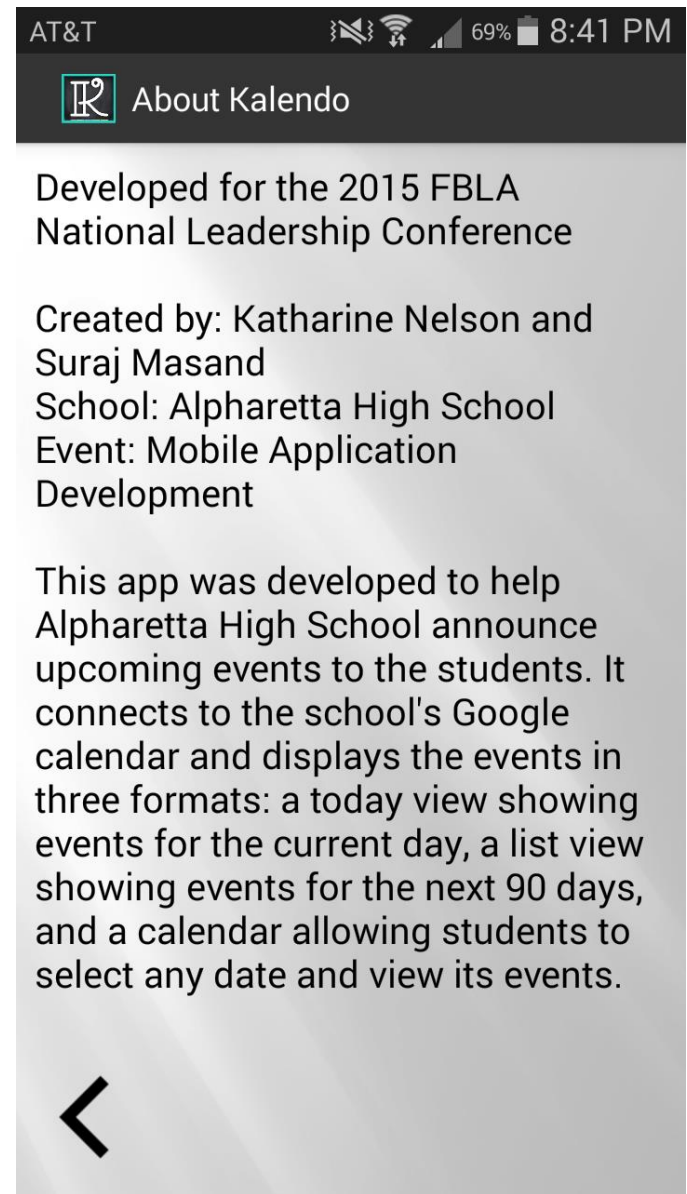

Menu with App Information

About Kalendo

Developed for the 2015 FBLA National Leadership Conference

Created by: Katharine Nelson and Suraj Masand
School: Alpharetta High School
Event: Mobile Application Development

This app was developed to help Alpharetta High School announce upcoming events to the students. It connects to the school's Google calendar and displays the events in three formats: a today view showing events for the current day, a list view showing events for the next 90 days, and a calendar allowing students to select any date and view its events.
